

Membership Requirements

Anyone over 13 can become a member of Pacific Airways; the best part is that it is entirely FREE. You should also have basic piloting skills (i.e., take-off, landing, etc.). To join the airline, click “Join,” fill out the new pilot application form, follow the screens, select a Hub of your choice, and visit the homepage. It is that easy. Flight Simulators like FSX, FS2020, or XPlane are required to become a pilot for Pacific Airways.
